

Water and health at

World Water Week in Stockholm September 5-11, 2010

Half of the hospital beds in the developing world are occupied by persons suffering from sanitation and water related disease. Lack of sanitation and safe drinking water causes death of about 1.6 million children a year. Join us in Stockholm and get involved in charting the policies and practices that will lead to a healthier world.

Relevant events at 2010 World Water Week in Stockholm:

- Opening plenary session: 2010 Stockholm Water Prize Laureate Lecture , Dr. Rita Colwell
- The Malin Falkenmark Seminar: Emerging Pollutants in Water Resources - A New Challenge to Water Quality
- Reducing the Risks of Untreated Wastewater Irrigation: Strategies and Incentives
- Enhancing Resilience: Protecting Water Quality for Human Health
- Healthier Water, Healthier People: An Approach to Improving Water Quality
- Guidelines for the Safe Use of Wastewater in Agriculture:
Launch of the 2nd Edition of the Guidelines' Information Kit
- Sanitation, Hygiene and Water for All – Promoting Equity and Inclusion
- Workshop 3: Water Quality for Human Health
- Five-year Countdown to the Water and Sanitation MDG Target: Status, Trends and Challenges
- Follow-up on Call to Action on WASH in Schools

About the World Water Week in Stockholm

The World Water Week in Stockholm is the annual meeting place for the planet's most urgent water-related issues. Organised by the Stockholm International Water Institute (SIWI), it brings together 2500 experts, practitioners, decision makers and business innovators from around the globe to exchange ideas, foster new thinking and develop solutions. Join us for a week of thought-provoking seminars and sessions, highlighted by the field's most prestigious awards, and a full agenda of events and networking opportunities. The 2010 World Water Week in Stockholm takes place September 5-11.
